Vote No On These 4 Bills

**AB
659**

Creates a local mandate that notifies parents and students that *“It is the public policy of the state that **pupils are expected to be fully immunized against human papillomavirus (HPV)** before admission or advancement to the 8th grade level of any private or public elementary or secondary school.”*

This is misleading verbiage as “Expectation” and “Required” are similar terms that will easily confuse parents, students and non-English speaking families about required vaccines to attend public school.

**AB
665**

Removes the requirement that children must be a danger to themselves or others, or be alleged incest or abuse victims, before seeking care without their parents’ consent.

This will remove the guardrails that prevent abuse of current law, so instead of cases of emergency, mental health professionals or school psychologists can refer for treatment and/or send a child to residential shelter services for any reason without parental consent.

**AB
1078**

Prevents local school board control of books/curriculum in public schools. Bill would require school boards to receive approval from the state board of education before removing any instructional materials or books from classrooms and school libraries or “ceasing to teach any curriculum.”

**AB
1090**

Authorizes the board of supervisors to remove a sheriff from office for cause, *as defined*, by a 4/5 vote, after the sheriff is served with a written statement of the alleged grounds for removal. The bill would authorize the board of supervisors to establish procedures for a removal proceeding against an elected Sheriff.

Vote No.
